MEMORANDUM FOR: Mr. Paul D. Taylor
Bureau of Intelligence and Research
Department of State

SUBJECT : Net Oil Import Bills of Major Consuming
Countries, 1972-1973

1. The attachments to this memorandum are in response to your request for data on the 1972-1973 net oil import bills of eight major consuming countries.

2. The net oil import bills are shown in Attachment I. Net imports are based on c.i.f. import - f.o.b. export costs for both crude and refined petroleum products.

[REDACTED] While published trade data were used where available, 1973 net imports for Italy, the Netherlands, and Spain had to be estimated. US import statistics, reported on an f.o.b. basis, were adjusted by adding transport costs.
